

RANSAL[®] Clean Air Suit

Clean Air Suits, made from RANSAL[®] antistatic fabric

According to European Standard EN 13795, the clean air suit is a Medical Device.

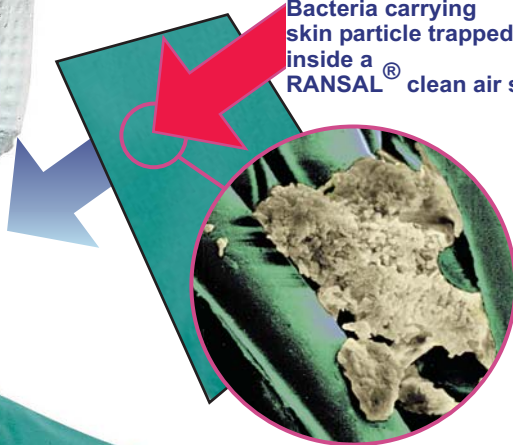

Every minute we shed more than 5,000 skin Particles

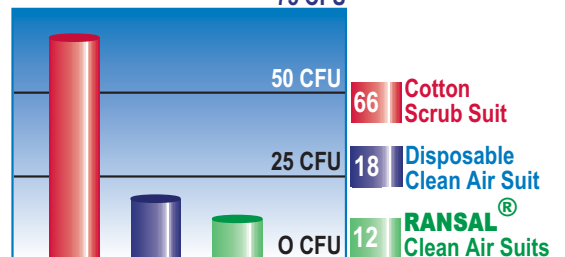

Bacteria and viruses carrying infection may be transferred by skin particles.

These Skin particles are very efficiently stopped by the **RANSAL[®] clean air suit** minimising the risk of particle transfer and the risk of infection. Our clothing keeps your Operating Room Air clean.

Bacteria carrying skin particle trapped inside a RANSAL[®] clean air suit

Clean Air Suits 75 CFU
